

# The AgilityHealth Radar: TeamHealth Retrospective Assessment

This three-hour TeamHealth workshop is a powerful, deep-dive strategic retrospective that focuses on the top areas that affect team performance and health.

## Step One:

Our instructor will work with your team to facilitate the completion of the unique 360 TeamHealth Radar, covering the 5 key dimensions of a healthy Agile team (Clarity, Performance, Leadership, Culture, Foundation).

## Step Two:

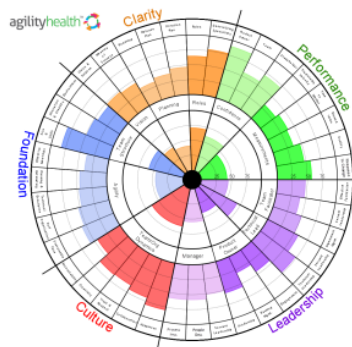

The instructor will engage the team in a healthy and open discussion around analyzing its radar results and reviewing its Strengths, Improvements and Top Impediments to growth. The final output is a team Growth Plan with key outcomes the team wants to achieve within the next few months.

## Learning Objectives:

- Understanding of the key areas that affect team health and performance.
- Completion of the 360 TeamHealth Radar assessment.
- Analysis of the results and variances between the responses.
- Review of the team’s strengths – celebrate success!
- Review of the team’s improvements and opportunities.
- Targeted Just-In-Time coaching on top gaps for the team.
- Development of Team Growth Plan with actionable deliverables for the next quarter.

The real value from this workshop is the open and honest conversations the instructor will facilitate to help the team get past any current roadblocks and develop a clear plan of action for getting their performance and health to the next level.

Repeat this strategic retrospective each quarter and see your team’s performance and health surge to the next level!
